

6TH CHAIRMAN'S CUP CRICKET TOURNAMENT - 2010

Weekly Bulletin

HEADLINES

Dukhan Community Team continues their winning spree by beating Nakilat. AMWAJ overcome RasGas. QP DT hit 143; RLC overhauled it for the top score with 156 against QP Contracts, the first 150 plus this year.

The Dukhan Community Team won their third match against Nakilat and continue to top the Group D table. However, with only one match to go, their moving into the Quarters is going to meet rough weather, considering that they have still to play their Dukhan counterparts, the Operations team. QP IT is the other favourite in the group while Nakilat has an outside chance. Hence Group D is open. QP DT and Gas Operations are favourites for Group A with Seef having an outside chance. Group B has Qafac and Oryx GTL leading. AMWAJ and RasGas are favourites for Group C.

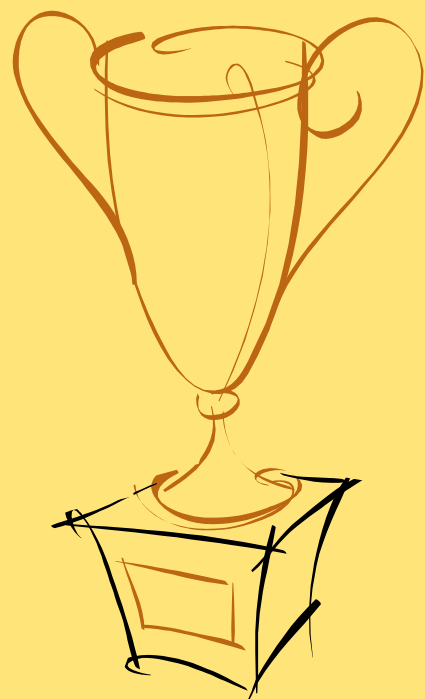

Fridays matches were interesting on way to the quarter – final berths. Qafac defeated RLC in a close match by 7 runs. In another match which went to the wire, Amwaj made 94 with Anwar Khan contributing 47. In reply Rasgas lost their way and ended on 87. QP IT easily won over QVC.

Saturday's matches were one-sided with QP DT making 143 while OXY could only muster 56. RLC against QP contracts notched up 156, with the contracts team finishing 100 runs behind. QVC's 42 was a cake walk for Nakilat, who made it in 7.5 overs. QChem's 90 was tightly contested by QP finance who matched the run-rate till about the tenth over. But fall of wickets was their undoing. Only Chandra Ramesh, who opened the QChem innings stood tall till the 14th over and lost his wicket in pushing the scoring rate.

The evidence of the number of sixes and fours hit this year is proof that it has been a bowler's tournament. Only 110 fours and 63 sixes against 346 and 247 last year respectively. And there are no more easy matches. So, probably a score of 90 should be par score; anything above, defensible.

The umpires got some exercise this last week, as the number of wides went up.

One month into the tournament with the sun burning down, the heat is draining. Next week, the Quarter Final lineup should be known. Wait for the fate.
